ORGANIC POUR & FEED

ready to use, no mixing

MADE IN
BRITAIN

ecofective®

ORGANIC POUR & FEED

Ready to use with NO MIXING.

Produced from a blend of natural ingredients, sugars, amino proteins and phosphate, which provides a balanced feed for plants, along with a biostimulant which encourage the plants to take up nutrients quickly, giving good results. Suitable for most indoor and outdoor plants to include; indoor grown capsicums (chillies, peppers) and herbs.

Some plants require specialist feeding, so check with your plant supplier to ensure you have the right feed for your plants.

Directions for use: 1 inner capful = 40ml

Water plants and then apply as per the below rates, distributing around the base of the plants. Apply every 7 days during the growing season.

Plant Pot Width	9-11cm	12-19cm	20cm
Application Rate	1 inner capful (40ml)	2 inner capful (80ml)	4 inner capful (160ml)

Advice: Avoid over or under watering plants, this put plants under stress and can lead to damage of the roots.

If applying to foliage, do not apply when temperatures are expected to reach over 30°C or in direct sunlight as this can burn the leaves. Store product out of direct sunlight, away from children and pets. Keep container upright during storage and transit.

Although not required, we recommend to wear gloves when gardening. Wash hands after use.
