ORGANIC TOMATO FEED CONCENTRATE

A complete liquid plant food that provides tomatoes with the balanced nutrition they need to produce large crops of delicious fruit and strong, healthy growth. With its dual action formula which feeds through both the leaves and the roots, as you water, it works quickly - so you see results sooner.

How to use: Always with cap on shake the bottle first and dilute into water. Using the inner cap as the measure, fill ¾ full (30ml) and pour into 4.5 litres (approx. 1 gallon) of water, mix well and apply to the base of the plant.

Greenhouse Grown: When the first truss has set and flowering, apply the feed every 7 days, until the end of fruiting. 4.5 litres (1 gallon) should be enough for 9 plants.

Outdoor Grown: When the second truss has set, apply the feed every 10 days. 4.5 litres (1 gallon) should be enough for 8 plants.

Growbags or Ring Culture: Use at double-strength and feed every 7 days.

Higher Yield: Use at double rate in the greenhouse, growbags or ring culture feed every 3-4 days; outdoor tomatoes feed every 5-7 days.

General Advice: Keep container upright during storage and transit. Store in a safe dry place away from children & pets. Avoid applying in direct sunlight, this could cause scorching of plants. Wash hands after use.

WITH A BIOSTIMULANT

DUAL ACTION

USED BY PROFESSIONALS

SUITABLE FOR ORGANIC GARDENING

Fertiliser Declaration

EC Fertiliser NPK 2.2-1.0-3.4 fertiliser solution - Typical Analysis w/w 2.3-1.0-3.4	
Nitrogen (N)	2.3%
Ureic Nitrogen	2.3%
Phosphorus (P ₂ O ₅) total	1.0% (0.44%P)
Phosphorus (P ₂ O ₅) soluble in water	1.0%
Potassium (K ₂ O) total	3.4% (0.28%K)
Potassium (K ₂ O) soluble in water	3.4%

Store out of direct sunlight in a cool place & store between 0 and 30°C.

*Safe to use around children and pets when following the labels instructions for use.

**Makes up to 225 Litres (approx.50 gallons) of feed.

Recycled and Recyclable Bottle Cap

This bottle is made from 100% recycled materials. Bottle & cap are recyclable.
