ORGANIC ERICACEOUS FEED

ecofective® Organic Ericaceous Feed is produced from a blend of natural ingredients, sugars, amino proteins, and phosphate, which provide a balanced feed.

Suitable for a wide range of acid loving plants to include azaleas, camellias, rhododendrons, heathers, magnolias, outdoor and under glass grown strawberries, blackcurrants, gooseberries, raspberries, and other edible crops like capsicums (chillies, peppers).

Some plants require specialist feeding, so check with your plant supplier to ensure you have the right feed for your plants.

Feed plants between March - September. Always water plants or ensure they are moist before applying any feeds to them.

**Directions for use:** 1 inner cap = 30ml.

Shake bottle before opening.

**Watering can application:** Measure 1 capful (30ml) into 4.5Ltrs of water. Feed at the base of the plants, and ensure roots are thoroughly soaked and feed every 10 - 14 days.

**Foliar spray application:** Measure 10ml into 3Ltrs of water. Foliar feed avoiding the flowers every 7 days, apply early morning or late evening.

**Advice:** Do not apply when temperatures are expected to reach over 30°C, or in direct sunlight as this can burn the leaves.

Store product out of direct sunlight, away from children and pets. Keep container upright during storage and transit. Wash hands after use. Protect from frost.

#### 2-1-3 NPK Fertiliser Solution

Nitrogen (N) total	2%
Phosphorus Pentoxide (P <sub>2</sub> O <sub>5</sub> )	1% (P=0.44%)
Potassium Oxide (K <sub>2</sub> O) total	3% (K=2.5%)
