ORGANIC HOUSEPLANT MIST 250ml

Using a nutrient rich foliar mist is a practice almost all of your plants will appreciate. Foliar feeding enables your plants to absorb fertiliser and micro-nutrients directly through their leaves quickly and results in greener leaves, and a healthier, faster growing plant.

Some plants require specialist feeding, like orchids, so check with your plant supplier to ensure you have the right product for your plants.

Directions for use:

Use all year round, Jan-Dec.

Shake bottle before use. Apply 3 times a week early morning or late evening by gently spraying at a distance of around 12 inches away from the leaves.

ORGANIC HOUSEPLANT MIST

For vibrant, healthier and faster growing plants

Advice:

Do not apply when temperatures are expected to reach over 30°C or in direct sunlight as this can burn the leaves. Store product out of direct sunlight, away from children and pets. Wash hands after use.

*Safe to use around children and pets when following the labels instructions for use

Recycled and Recyclable

This bottle is made from 100% recycled materials. Bottle and cap are recyclable.
